He also does not like that they pull into the back of the building by way of Gosling rd access, rather than from the Woodbury ave access. [REDACTED] She advised that the truck just arrived a few moments ago and was not going to be there long. She did say that the truck that is there now, specifically is a refrigerator truck and cannot shut off for that reason. I did specifically request that any trucks that make deliveries if she can please ask the drivers to shut off their trucks if they can do so. She said she already does that but will continue to do so. I spoke with the caller again notifying him of what the employee said. I also advised him that we cannot enforce how the drivers pull into the back of the building in a specific way as there are no city ordinances regarding that. I did tell him to call when trucks do park there and idle for a long period of time. Clear call with no action.
